

GLOBEX

WHEELCHAIR STAIRCLIMBER

ARE YOU PREPARED ?

The Disability Discrimination Act (DDA) gives disabled people important rights of access to everyday services. Service providers have an obligation to make reasonable adjustments to premises or to the way they provide a service.

Our mobile tracked stairclimber gives wheelchair users the chance to overcome architectural barriers both in the home and in the outside world, without any permanent installations. They can be used in the event of an emergency, or when lifts can not be used during maintenance of a power failure

The stairclimber provides a simple solution, it connects to a wheelchair and can be operated by one person to provide access up and down stairs.

Advantages of the **GLOBEX** wheelchair stairclimber:

- Easily operated by one person
- Medical Devices Agency approved
- CE marked
- Can be used on all kinds of stairs
- Covered track for additional safety
- Does not mark or damage stairs
- Users stay in their wheelchairs
- Assists with compliance
- Provides access to otherwise non-accessible areas
- Can be used anywhere
- For personnel or business use
- No need for expensive lift installations or building alterations
- Economic solution
